

Print Client Name:		Client Identification Number:		Date:	Adult 65D-30 Outpatient ASAM Level I	
DIMENSIONS	[3] DISCHARGE	TRANSFER		Circle all items in each dimension that apply to the client. Place a check in the appropriate box that indicates validation of lack of validation for discharge or transfer from this level of care.	YES	NO
		Enter Level				
ASAM Requirements	Meets criteria in one of the six dimensions unless discharged for lack of diagnostic criteria.				<input type="checkbox"/>	<input type="checkbox"/>
Dimension 1: Acute Intoxication and/or Withdrawal Potential	The client's status in this dimension is characterized by one of the following: <input type="checkbox"/> a. Client is free from intoxication or withdrawal symptoms/risks; or <input type="checkbox"/> b. The client exhibits symptoms of severe intoxication and/or withdrawal, which cannot be safely managed at this level of care.				<input type="checkbox"/>	<input type="checkbox"/>
Dimension 2: Biomedical Conditions and Complications	The client's status in this dimension is characterized by one of the following: <input type="checkbox"/> a. The client's biomedical conditions, if any, have diminished or stabilized to the extent they can be managed through outpatient appointments at the client's discretion, and the client does not meet any of the continued stay criteria in this or another dimension that indicates the need for further treatment in ASAM Level I; or <input type="checkbox"/> b. The client has a biomedical condition that is interfering with addiction treatment and that requires treatment in another setting.				<input type="checkbox"/>	<input type="checkbox"/>
Dimension 3: Emotional, Behavioral or Cognitive Conditions and Complications	The client's status in this dimension is characterized by one of the following: <input type="checkbox"/> a. The client's emotional, behavioral or cognitive conditions, if any, have diminished or stabilized to the extent they can be managed through outpatient appointments at the client's discretion, and the client does not meet any of the continued stay criteria in this or another dimension that indicates the need for further treatment in ASAM Level I; or <input type="checkbox"/> b. The client has an emotional, behavioral or cognitive condition that is interfering with treatment and that requires additional treatment in another setting.				<input type="checkbox"/>	<input type="checkbox"/>
Dimension 4: Readiness to Change	The client's status in this dimension is characterized by one of the following: <input type="checkbox"/> a. The client's awareness and acceptance of his/her addiction problem and commitment to recovery is sufficient to expect maintenance of a self-directed recovery plan, based on the following evidence: 1) the client recognizes the severity of the substance abuse problem; 2) the client has an understanding of the self-defeating relationship with substances; 3) the client is applying the skills necessary to maintain sobriety in a mutual self-help group and/or with post-treatment support care; and 4) the client does not meet any of the continued stay criteria in this or another dimension that indicates the need for further treatment in ASAM Level I; or <input type="checkbox"/> b. The client consistently has failed to achieve essential treatment objectives despite revisions to the treatment plan, to an extent that no further progress is likely to occur.				<input type="checkbox"/>	<input type="checkbox"/>

Dimension 5: Relapse/Continued Use Potential	The client's status in this dimension is characterized by one of the following: <input type="checkbox"/> a. The client's therapeutic gains in addressing craving and relapse issues have been internalized and integrated so the client does not meet any of the ASAM Level I continued stay criteria in this or another dimension that indicates the need for further treatment in ASAM Level I; or <input type="checkbox"/> b. The client is experiencing a worsening of drug-seeking behaviors or craving, requiring treatment in a more intensive level of care.	<input type="checkbox"/>	<input type="checkbox"/>
Dimension 6: Recovery Environment	The client's status in this dimension is characterized by one of the following: <input type="checkbox"/> a. The client's social system and significant others are supportive of recovery to an extent that the client can follow a self-directed treatment plan without substantial risk of relapse/continued use and the client does not meet any of the continued service criteria in this or another dimension that indicates the need for further treatment at ASAM Level I; or <input type="checkbox"/> b. The client is functioning adequately in assessed life task areas of work, social functioning or primary relationships and does not meet any of the continued service criteria in this or another dimension that indicates the need for further treatment at ASAM Level I; or <input type="checkbox"/> c. The client's social system remains non-supportive or has deteriorated. The client is having difficulty coping with this environment and is at substantial risk of relapse and requires placement in a more intensive level of care.	<input type="checkbox"/>	<input type="checkbox"/>
