

Print Client Name:		Client Identification Number:	Date:	<b>Adolescent 65D-30 Outpatient ASAM Level I</b>	
<b>DIMENSIONS</b>	<b>[1] ADMISSION CRITERIA</b>	Circle all items in each dimension that apply to the client. Place a check in the <b>appropriate</b> box that indicates validation or lack of validation for placement into this level of care.		<b>YES</b>	<b>NO</b>
<b>ASAM Requirements</b>	Meets criteria in all six dimensions.			<input type="checkbox"/>	<input type="checkbox"/>
<b>Dimension 1:</b> Acute Intoxication and/or Withdrawal Potential	The client's status in this dimension is characterized by one of the following: <input type="checkbox"/> a. Client is free from intoxication or withdrawal symptoms/risks; or <input type="checkbox"/> b. The client's intoxication or withdrawal symptoms/risks can be managed at this level of care.			<input type="checkbox"/>	<input type="checkbox"/>
<b>Dimension 2:</b> Biomedical Conditions and Complications	None or very stable - The client's biomedical conditions, if any, are stable enough to participate in outpatient treatment.			<input type="checkbox"/>	<input type="checkbox"/>
<b>Dimension 3:</b> Emotional, Behavioral or Cognitive Conditions and Complications	The client's status in Dimension 3 is characterized by all of the following: <input type="checkbox"/> a. <i>Dangerousness/Lethality</i> : The client is assessed as not posing a risk of harm to self or others. He or she has adequate impulse control to deal with any thoughts of harm or self or others; <input type="checkbox"/> b. <i>Interference with Addiction Recovery Efforts</i> : The client's emotional concerns relate to negative consequences and effects of addiction, and he or she is able to view them as part of addiction and recovery. Emotional, behavioral or cognitive symptoms, if present, appear to be related to substance-related problems rather than to a co-occurring psychiatric, emotional or behavioral condition. If they are related to such a condition, appropriate additional psychiatric services are provided concurrent with the Level I treatment. The client's mental status does not preclude his or her ability to: [1] understand the materials presented; [2] participate in the treatment process; <input type="checkbox"/> c. <i>Social Functioning</i> : The client's relationships or spheres of social functioning are impaired but not endangered by substance use. The client is able to meet personal responsibilities and d. to maintain stable, meaningful relationships despite the mild symptoms experienced; <input type="checkbox"/> d. <i>Ability for Self-Care</i> : The client has adequate resources and skills to cope with emotional, behavioral or cognitive problems, with some assistance. He or she has the support of a stable environment and is able to manage the activities of daily living; <input type="checkbox"/> e. <i>Course of Illness</i> : The client has only mild signs and symptoms. Any acute problems have been well stabilized, and chronic problems are not serious enough to pose a high risk of vulnerability.			<input type="checkbox"/>	<input type="checkbox"/>
